Description

Cellulose fiber cardboards up to 3mm thick. Used in galvanoplasty, food industry and general industry. Their thickness allows to use them in press filters as patches. Presented as disks or patches in all dimensions, can be drilled for adaptation to the various types of filtration systems.

Reference	Filtration	Ash %	Thickness (µm)

DEPTH FILTER SHEET

			g/m²		Micrometric retention (µm)
PF600R	Fast	1	650 - 750	1500	6 to 8
PF800R	Fast	1	700 - 900	1800	8 to 10
PF1000R	Fast	1	900 - 1100	2400	5 to 6
PF1200R	Fast	1	1100 - 1300	2500	4 to 6
PF800L	Slow	1	750 - 850	1900	2 to 3
PF1000L	Slow	1	900 - 1100	2100	1 to 2
PF1200L	Slow	1	1100 - 1300	2100	1
